

SIMPLE - LIGHTWEIGHT - TRAVEL

Rediscover the joy of travelling with the Kera Travel, an **ultra-lightweight** and **portable** sit2sit™ hoist.

The Kera Travel is a revolutionary new type of sit2sit™ hoist that makes transfers for a non-weight bearing user, quick and simple with a single caregiver, all in a portable form that makes travelling with it a breeze.

*Designed and made
in New Zealand*

FINALIST OF THE
NZ HI-TECH AWARDS 2024

EFFORTLESS TRANSFERS

MORE FREEDOM

Benefits of the Kera Travel are:

- **Lightweight** - Less than 20kg in carry case
- **Small** - 60x55x53cm in carry case
- **Quick** - Set up in minutes
- **Ready** - No batteries or power required
- **Easy** - Simple luggage check-in

Transfers with the Kera Travel are:

- **Single caregiver**
- **Effortless** - sit2sit transfers for users up to 100kg
- **Non-weightbearing** - Ideal for users with tetraplegia, double leg amputation, stroke, multiple sclerosis (MS), or Parkinson's disease, who are unable to stand or grip.

Margaret and Jim's story

The Kera Travel hoist is transforming lives for couples like Margaret and Jim.

Before the Kera: "I was here all day lifting him on my own," says Margaret, who cares for her husband, who has had Parkinson's for nearly 20 years. "It was hard on my back and hard on Jim."

"The Kera Travel hoist means we can get in the car, we can go out, out for coffees, out to see friends, go away for a few nights, which we haven't been able to do for a long time. So it is a game changer for us."
